

SCORPION
MINERALS LTD

Murchison Gold Strategy

Presentation | February 2025

Disclaimer

COMPETENT PERSONS STATEMENT

The information in this report that relates to the Exploration Results and Mineral Resources at the Mt Mulcahy, Pharos and Youanmi Projects is based on information reviewed by Mr Michael Fotios, whom is a member of the Australian Institute of Mining and Metallurgy. Mr Fotios is the CEO of Scorpion Minerals Limited and has sufficient experience which is relevant to the style of mineralisation and types of deposit under consideration and to the activity he is undertaking to qualify as Competent Persons as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code 2012)'. Mr Fotios consents to the inclusion of the information in the form and context in which it appears.

The information in this report that relates to the Mt Mulcahy Mineral Resource is based on information originally compiled by Mr Rob Spiers, an independent consultant to Scorpion Minerals Limited and a then full-time employee and Director of H&S Consultants Pty Ltd (formerly Hellman & Schofield Pty Ltd) and reviewed by Mr Fotios.

This information was originally issued in the Company's ASX announcement "Maiden Copper-Zinc Resource at Mt Mulcahy", released to the ASX on 25 September 2014. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements. The company confirms that the form and context in which the findings are presented have not materially modified from the original market announcements.

FORWARD LOOKING STATEMENTS

Scorpion Minerals Limited has prepared this announcement based on information available to it. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this announcement. To the maximum extent permitted by law, none of Scorpion Minerals Limited, its Directors, employees or agents, advisers, nor any other person accepts any liability, including, without limitation, any liability arising from fault or negligence on the part of any of them or any other person, for any loss arising from the use of this announcement or its contents or otherwise arising in connection with it.

This announcement is not an offer, invitation, solicitation or other recommendation with respect to the subscription for, purchase or sale of any security, and neither this announcement nor anything in it shall form the basis of any contract or commitment whatsoever.

This announcement may contain forward looking statements that are subject to risk factors associated with exploration, mining and production businesses. It is believed that the expectations reflected in these statements are reasonable, but they may be affected by a variety of variables and changes in underlying assumptions which could cause actual results or trends to differ materially, including but not limited to price fluctuations, actual demand, currency fluctuations, drilling and production results, reserve estimations, loss of market, industry competition, environmental risks, physical risks, legislative, fiscal and regulatory changes, economic and financial market conditions in various countries and regions, political risks, project delay or advancement, approvals and cost estimate.

To become a multi-project, multi-commodity producer of significance, utilising a team of proven professionals who have successfully taken multiple exploration companies to production.

CORPORATE OVERVIEW

Company Snapshot

Why Scorpion

- Highly prospective Gold assets (Murchison - Western Australia), existing Cu resource and significant exploration upside
- Experienced management team with track record of taking exploration companies to production
- Large ground position (+1600km²) on Dalgaranga – Big Bell Shear Corridor
- Walk-up high-grade drill targets
- Clear pathway to shareholder value creation

Share Price Performance

Share Price (5 February 2025)	AUD 0.015/share
Shares on Issue	409,456,192
Listed Options (\$0.075)	35,999,997
Unlisted Incentive Options (\$0.00) – various vesting	15,000,000
Unlisted Options (\$0.12) – various vesting	130,000,000

Market Capitalisation (AUD)	7.8M
(10 day VWAP \$0.019)	

Project Ownership	
Pharos - Au	100%
Mt Mulcahy - Cu	100%
Perves – Ni-Co	100%
Pallas – Ni - PGE	100%
Nowthanna & Youanmi	100%

PHAROS – GOLD OVERVIEW

Pharos Project Expands

Underexplored Targets

LARGEST LANDHOLDING IN DALGARANGA – BIG BELL SHEAR CORRIDOR

- Major new discovery by Spartan at Dalgaranga (Never-Never and Pepper)
- Dalgaranga – Big Bell Corridor now hosts two multi million-ounce deposits
- E79 JV adds 700 km² and additional coverage of shear corridor
- Scorpion holdings exceed 1600 km² at north end of trend
- RC drill testing planned at advanced targets
- Systematic soil geochem and infill mapping planned to evaluate broader potential

PHAROS – GOLD OVERVIEW

E79 JV

Underexplored Targets

FARMIN AGREEMENT ADDS 700KM² COVERAGE ALONG PROSPECTIVE TREND

- Historic exploration tested magnetic targets with limited Air Core and RC
- Multiple gold targets
- Main Dalgaranga – Big Bell Shear corridor untested by any historic exploration
- RC drill testing planned at advanced gold targets
- Untested copper and lithium targets
- Systematic Geochem sampling and detailed mapping planned to evaluate broader potential

PHAROS – GOLD OVERVIEW

MULTIPLE GOLD TARGETS

Underexplored Targets

OLIVERS PATCH – MIDDLE BORE SPLAY

- 10 km long NNW trend only sporadically tested
- Middle Bore – historic RAB drilling intersected broad supergene blanket
- 18m @ 1.49 g/t Au in shallow RAB hole not followed up
- Stratigraphic diamond hole to the north of RAB hole intersected 5m @ 1.62 g/t Au, 120 metres below surface
- RC drill testing planned at Middle Bore and Afghan Bore
- Orientation Geochem sampling planned over Middle Bore and Afghan Bore to characterise targets

PHAROS – GOLD OVERVIEW

HIGH – GRADE

EXISTING TARGETS

- Historic exploration identified multiple shallow gold targets
 - Lantern: 7m @ 8.33 g/t Au from 4m
16m @ 3.09 g/t Au from 0m
 - Cap Lamp: 5m @ 8.28 g/t Au from 9m
 - Ulysses, Mt Mulcahy, Mustang Sally and Laterite Hill untested by SCN
 - RC drill testing planned at all targets

Rare Metals - W

Regional Context

RECENTLY IDENTIFIED TUNGSTEN (W)

POTENTIAL:

- Tungsten targets identified within largely untested 50km strike zone of Rare Metal including LCT.
- Watkins target site of minor historic tungsten workings
- Poona tungsten prospect consists of 1km long soil anomaly and associate gold

Tungsten Targets

Regional Context

**Advanced Targets Recently Identified,
Significant Exploration Potential:**

- Poona target untested.
- Historic soil sampling identified 2 significant anomalies
- Up to 1km in length
- Significant W anomaly in rock chip north of LCT pegmatites

Our Values

We are Scorpion Minerals Limited. What we do and how we do it matters. As we explore and develop mineral assets that make our world better, our purpose is guided by these core values.

Our values underpin our Environmental, Social and Governance (ESG) approach, forming the foundations for the way in which we manage Scorpion and assist our shareholders. We consider it our responsibility to work in accordance with accepted standards relating to ESG factors. This ensures alignment with the important objectives of our society, both from a company and shareholder perspective

Integrity

We are honest in everything we do. We maintain the highest degree of ethical behavior and the appropriate level of openness, honesty, fairness, and respect

Community-Focused

Through active and sustained involvement with our neighbors, we generously share our resources and human talent to grow alongside our communities

Leadership

We attract and develop great talent and together we achieve exceptional outcomes. We approach our responsibilities with purpose, a sense of pride and ownership, and our achievements with humility

Sustainability

We are respectful and protective of our natural surroundings. We rely on sound scientific principles, data, knowledge, processes and practices to inform our decisions and meet environmental obligations. As we grow, we will grow our sustainability practice to deliver products that meet international standards.

DIVERSE & DEDICATED LEADERSHIP TEAM

Focused on Delivering Shareholder Value

Bronwyn Barnes

NON-EXECUTIVE CHAIRMAN

An experienced mining executive and director with extensive experience in Australia and Africa, Ms Barnes has held directorship, leadership and operational roles with companies ranging from BHP Billiton to emerging juniors in Australia and internationally.

Mike Kitney

NON-EXECUTIVE DIRECTOR

Mr Kitney is an internationally experienced extractive metallurgist with in excess of 40 years' experience in resource evaluation and project development roles in Australia and internationally.

Michael Fotios

CHIEF EXECUTIVE OFFICER

Mr Fotios is a geologist specialising in economic geology with extensive experience in corporate and exploration/development throughout Australia for gold, base metals, lithium, tantalum, tin, and taking projects from exploration to feasibility and mining.

Kate Stoney

EXECUTIVE DIRECTOR & COSEC

Ms Stoney is a CPA qualified accountant who has over 15 years' experience working in accounting, administration and company secretarial positions in listed companies.

FURTHER INFORMATION

Appendices

Large Copper VMS System Yet to Be Fully Tested

Recent Review Highlights Potential Scale of Copper VMS System:

- Mt Mulcahy hosts a significant Cu-Zn-Ag-Au-Co resource in VMS stratigraphy similar to Golden Grove
- Existing resource of 647,000 tonnes @ 2.4% Cu, 1.8% Zn, 0.1% Co, and 20g/t Ag identified at South Limb Pod
- Recent review highlights multiple untested VTEM conductors within 13.5km strike zone
- Clearances completed for follow up drilling
- Potential divestment / farm-out opportunity

Table 1: Current Mineral Resource Estimate, Mt Mulcahy Project

(refer ASX release 25/9/2014 "Maiden Copper - Zinc Resource at Mt Mulcahy", which also contains a list of significant drill intersections for the deposit, listed within that report at Table 2)

Resource Category	Grade						Contained Metal				
	Tonnes	Cu (%)	Zn (%)	Co (%)	Ag (g/t)	Au (g/t)	Cu (t)	Zn (t)	Co (t)	Ag (oz)	Au (oz)
Measured	193,000	3.0	2.3	0.1	25	0.3	5,800	4,400	220	157,000	2,000
Indicated	372,000	2.2	1.7	0.1	19	0.2	8,200	6,300	330	223,000	2,000
Inferred	82,000	1.5	1.3	0.1	13	0.2	1,200	1,100	60	35,000	
TOTAL	647,000	2.4	1.8	0.1	20	0.2	15,200	11,800	610	415,000	4,000

PGE-Nickel-Copper-Cobalt Potential

Underexplored Targets

Porses and Pallas Prospects::

- Historic exploration tested magnetic targets with limited Air Core and RC
 - Single air core traverse at Perses and one RC hole at Pallas
 - Perses: 8m @ 1.02%Ni, 1096ppm Co plus anomalous Pd/Pt
 - Pallas one ~100m deep RC hole with ~1.0g/t Pd/Pt and anomalous Ni/Cr at end of hole
 - Follow up RC drill testing planned at both targets
 - Systematic mapping and Geochem sampling planned to evaluate broader potential
 - Airborne VTEM survey planned

Extensive Lithium Corridor

Advanced Targets Recently Identified, Significant Exploration Potential:

- Largely untested 50km strike zone of LCT pegmatites within the Project, including extensive LCT pegmatite swarms at Poona East and Poona West prospects (refer ASX release 20 October 2022).
- Recent RC drilling intersected highly fractionated complex LCT pegmatites, field reconnaissance has identified multiple follow-up targets (refer ASX release 22 April 2024). Historic surface sampling has returned high-grade values up to 2.99% Li₂O/
- LCT pegmatites are oriented subparallel to the granite contact and are shallow dipping to the north (Poona East) and northeast (Poona West). Individual pegmatites are up to 1000m long and surface exposures suggest widths from 10m to 15m wide. Shallow dipping pegmatite orientation is a characteristic of significant LCT pegmatite systems.
- Further RC drill testing of Poona targets planned following additional heritage clearing to allow access to expanded pegmatite target area.
